

“Harding Shymanski is more than just an accounting firm...they are our Trusted Advisor.”

Diane Fischer
President

“L&D Mail Masters has grown from a small, home based business to a full-service direct marketing provider with over 135 full-time staff members and 188,000 square feet of production and storage space. Through that period of growth, it became apparent that we needed more than just an accounting firm who prepared our taxes...we needed advice.

During our search, Harding, Shymanski and Company (HSC) came very highly recommended to us from our bank as well as others in the community. From the outset of our relationship, Scott Olinger and the HSC team have consistently outperformed our expectations. From assistance with strategic planning to representing us during a tax audit, their insight has both saved us money and helped make our business even more successful.

We have found Harding, Shymanski and Company to be extremely proactive and there to give us advice, even in advance. They are more than just an accounting firm...they are our Trusted Advisor.”

Diane Fischer, President
