

“We made the right decision when we chose Harding, Shymanski & Company.”

“It is very clear that we made the right decision when we chose Harding, Shymanski & Company as our accounting firm over 15 years ago. It is unfair to call HSC “just our accounting firm” because they are so much more than that. They are our trusted business consultants. Our entire HSC team has and continues to be an invaluable sounding board and resource as we address our ever increasing needs.

In our line of business, as with most, having the right tools and qualified people in place to do the job is a must; and HSC has proved time and again they have both. They have the resources and talented client service professionals to help our company to continue to grow. Because they have a team of construction industry experts, HSC not only understands the issues we face as contractors, but they are also committed to being at the forefront providing solutions to tax and accounting issues as they arise. They also provide us with the best industries practices.

HSC has helped Sterling Boiler grow our company, and continues to provide us with the knowledge and experience in order for us to plan and control future growth.”

Dan Felker, President
